Great success for the MILLE MIGLIA'S CHASSIS project with Chopard

The crowdfunding for the MILLE MIGLIA'S CHASSIS book has closed: the project hit its goal, with €31,602 collected out of €25,000 of the target. A really a great success for Automotive Masterpieces. The Kickstarter platform made it possible with the help of all the backers and of the special partner Chopard.

Chopard has been always on the front line with Automotive Masterpieces that was able to realize and now spread a project to be really, really proud of.

The MILLE MIGLIA'S CHASSIS book project is mainly dedicated to the cars that have raced the Mille Miglia, with photos and documents to testify their participation. MILLE MIGLIA'S CHASSIS is an ambitious project, the first of its kind and it will be developed in a series of 10 volumes.

In the book, each car featured that took part to the Mille Miglia from 1927 to 1957 is presented with two lists: one about all the Mille Miglia speed races in which it took part, a second one of following events under the Mille Miglia name. To conclude, a third separate list comprehends the categories of the car according to AUTOMOTIVE MASTERPIECES and includes all the races and events in which the car took part all over the world in the years. Moreover, the cars that participated from 1958 to the events in the name of the Mille Miglia appear in another section of the book.

In the first volume of the series there will be 49 cars featured which took part in the original editions of the race, plus another 42 of those participating in events under the Mille Miglia name from 1958 to today.

MILLE MIGLIA'S CHASSIS will be entirely edited by AUTOMOTIVE MASTERPIECES under the patronage of the Museo Mille Miglia, written by Sandro Binelli. The book is naturally born from the AUTOMOTIVE MASTERPIECES project. So that, to increase the reading experience in the book, each car featured will have its own QR code, enabling a never-seen-before digital access to more historical details.

Distributed by the Italian reference in the publication of automotive-themed books Giorgio Nada Editore – Libreria dell'Automobile, the MILLE MIGLIA'S CHASSIS book has its treasures ready to be discovered.
